

REMARKS/ARGUMENTS

Favorable reconsideration of this application as presently amended and in light of the following discussion is respectfully requested.

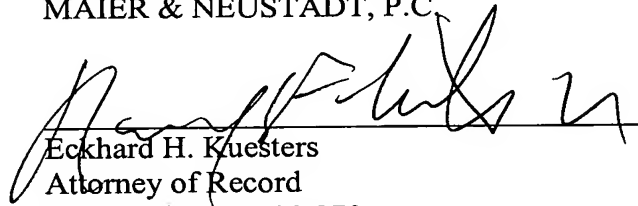

The communication mailed March 23, 2007, indicates that the drawings received March 10, 2004, were not consistent with the Brief Description of the Drawings. Accordingly, the Brief Description of Figures 13 and 46 at pages 10 and 13 of the specification have been amended to include Fig. 11C and Fig. 46C, respectively. The indication in the Notice of the Drawings filed on March 10, 2004, as including a drawing number 13C is in error as the drawings as filed included on Figs. 13A and 13B.

Applicants submit that no new matter has been added by the foregoing amendments to the specification. Applicants further respectfully submit that all of these amendments clearly correct only formal matters in a manner requiring no further search or other considerations on the merits.

Accordingly, entry of this Amendment under 37 CFR § 1.312 as correcting only matters of form is respectfully urged to be in order.

Respectfully submitted,
